

*Up to 60 percent of crimes on premises occur in parking lots: the average jury awards \$1.3 million dollars with average settlements at \$600,000.*

*Your solution? Have Daniel R. Finger, LLC perform a site security survey to determine potential vulnerability and make reasonable recommendations and accommodations.*

*Contact the leading Jacksonville Physical Security Consultant, Daniel R. Finger today.*

## Daniel R. Finger, LLC Physical Security Consulting Services

### Physical Security and Site Surveys

- Review CCTV, radio system, alarms, keys/locks, parking areas, infant tagging, access control, traffic flow
- Analyze crime statistics for area and perceived crime concerns by interviewing employees and leadership
- Provide site risk/ security assessment to identify obvious or potential security issues and provide client with best practice recommendations
- Identify 'sensitive' areas or high-risk areas and make appropriate recommendations
- Procure 'focus' or targeted survey on high-risk areas
- Provide analysis for hospitals, nursing homes, office buildings, clinics, housing communities, apartments and public infrastructure
- Integrate HLS-CAM and CPTED concepts into site review
- Infrastructure analysis to determine vulnerabilities to assets and duplication of critical functions such as power (gas electrical) water, sewer, communications to maintain normal business functions

### Management Plan

- Evaluate current security management plan in response to actual or perception of criminal activity or other security emergencies
- Contract security specifications/ evaluations and transition advice
- Determine effectiveness of current security management program for compliance with regulatory or administrative agencies
- Review emergency procedure and response plans
- Review training programs for both security and non security personnel
- Analyze 'best practice' staffing standards
- Violence in the workplace

### Project Management

- Research, design, recommend purchase, and oversee installation of security-related equipment
